UCAF Assessment Methodology

Issuing office: Meridian Cyber Defense Command

The independent digital-network assessment method for six cyber assurance domains.

Network scope and limits

United Network Federation is an independently presented, privately administered digital-network governance framework. Its charter, participation rules, registry entries, reviews and dispute procedures operate only within services and among participants that adopt them. These publications are not government instruments, statutory licenses, judicial orders, public registrations or proof of independent security certification. A registry match confirms a publication in this network catalogue only. Sponsorships or external approvals require separate, verifiable evidence.
