

ANNUAL REPORT · NETWORK CATALOGUE PUBLICATION

# NBDI · Annual Review 2026

Issuing office: Northstar Bureau of Digital Integrity

The 2026 network annual review documents signal review, public records and the institution’s next review priorities.

## Network scope and limits

United Network Federation is an independently presented, privately administered digital-network governance framework. Its charter, participation rules, registry entries, reviews and dispute procedures operate only within services and among participants that adopt them. These publications are not government instruments, statutory licenses, judicial orders, public registrations or proof of independent security certification. A registry match confirms a publication in this network catalogue only. Sponsorships or external approvals require separate, verifiable evidence.

## Record particulars

|                            |                                                                                                                             |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Document identifier        | NBDI-AR-2026-000001                                                                                                         |
| Record category            | Annual Report                                                                                                               |
| Issuing institution        | Northstar Bureau of Digital Integrity                                                                                       |
| Subject / named party      | Northstar Bureau of Digital Integrity                                                                                       |
| Catalogue publication date | 2026-10-07                                                                                                                  |
| Registry listing status    | PUBLISHED IN NETWORK CATALOGUE                                                                                              |
| Validity and limitation    | Valid only as a network-specific network catalogue record. Review date: 2027-10-07; not a government or statutory document. |
| Program review             | Signal Review published a scoped scenario guide and a sample records series.                                                |
| Public access              | 9 network-defined departments maintain named record owners and plain-language service descriptions.                         |
| Accountability             | Scenario decisions state the applicable Code, response route and evidence limitations.                                      |
| Outlook                    | Expand accessible publications, strengthen network review consistency, and document changes in the next annual edition.     |
| Statistics                 | All activity figures on this portal count published sample entries, not real enforcement work.                              |

## Review, corrections and verification

Record amendments may be published with a version history, responsible issuing office and reason for change. Verify the exact identifier in the federation registry. A catalogue match verifies published data and file integrity only, not third-party approval or statutory authority.
